

# Mobile Power Station- Mobile Hotspot

Inbuilt two 2200mA High Capacity Li Battery, Stay Online for 6 hours  
Long-lasting Battery Pack for Smartphone  
Support Mobile Broadband - Smartphone, GSM and 3G

300  
Mbps

SAPIDO Mobile Hotspot is equipped with two high capacity and long-lasting Li Batteries. Have the batteries fully charged, you can stay Internet connection for 6 hours, while standby time is up to 20 hours. The inbuilt mini USB port offers flexible power supply and battery charging. It is truly the only router to take with you and enjoy Internet on the road with no worry!

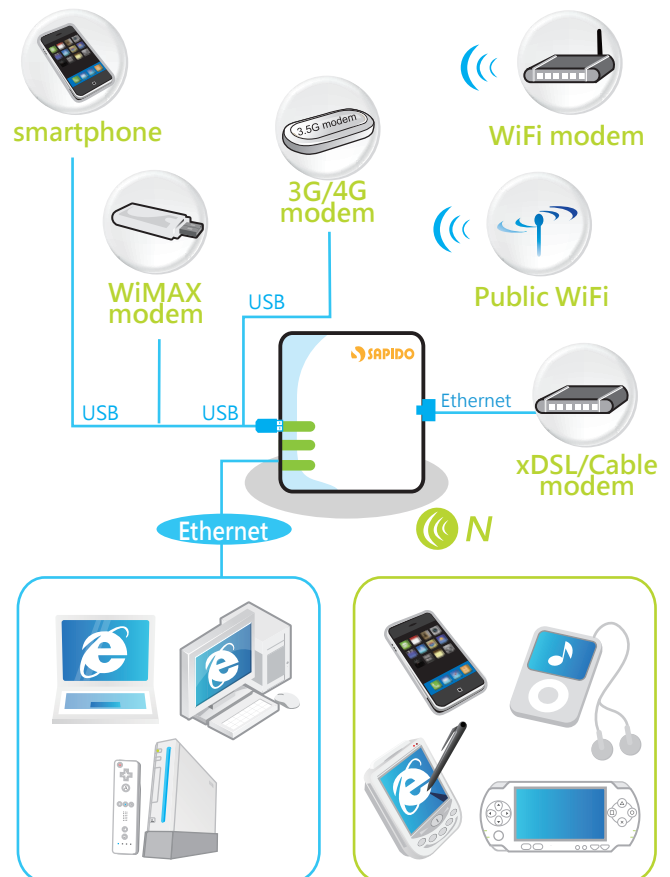

Whatever broadband service you use - xDSL/Cable, WiFi Hotspot, 3G/4G, or even WiMAX, you can share internet connections effortlessly via SAPIDO router. It also carries advanced 2T2R antenna technology, which enhances not only wireless coverage but also provides an ultimate wireless speed performance of 300 Mbps.

In addition, SAPIDO router complies with the latest 802.3az Energy Efficient Ethernet standard and carrying Green AP technology. It adjusts power consumption according to the auto detect of Internet connection and packet transmission, and can save up to 80% electricity.

- ★ Connect to Smartphone such as iPhone, HTC, etc. for Internet Sharing
- ★ Share All Broadband Connections - GSM/3G/4G-Smartphone-xDSL Cable/Fiber-Public WiFi
- ★ Built-in Long-Lasting Battery - Standby time 20 hours-Stay Online for 6 hours
- ★ Long-lasting Battery Pack for smartphone such as iPhone
- ★ Using Apple Facetime for free
- ★ 2T2R MIMO Technology - Wireless Max. Speed of 300Mbps
- ★ Advanced Green Design Saving up to 80% Power Consumption
- ★ 20,000 Sessions for Efficient and Stable P2P Downloading
- ★ Powerful Firewall - SPI Mode against DOS Attack and built-in Port IP/MAC/URL Filters to Safeguard your Network

## ► Share All Broadband Connections - GSM/3G/4G · Smartphone · xDSL/Cable/ Fiber · Public WiFi

Supporting mobile broadband via not only 3G modem, but also various smartphones, this Router allows Internet access sharing whatever broadband service you use, ie. 3G/4G, xDSL/Cable/Fiber, Public WiFi.

► **Connect to Smartphone such as iPhone, HTC, etc. for Internet Sharing**

Connect to Smartphone such as iPhone, HTC, etc. which performs as 3G/4G modem for sharing internet to multiple devices anytime, anywhere.

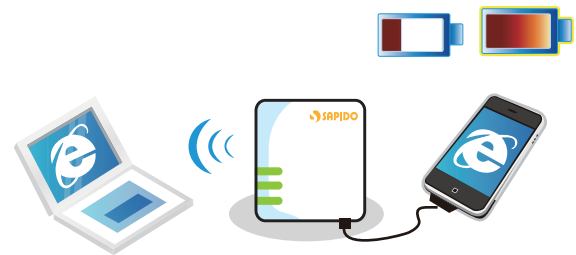

► **Inbuilt two 2200mA Li-ion Batteries for Long-Lasting Power Supply and Mobile Power Pack – Internet on the Go!**

Inbuilt two 2200mA high capacity 18650 Li-ion Batteries allow you to stay online for 6 hours while standby time is up to 20 hours. Take your MB-1132 in your briefcase, you can surf the internet or skype outside anytime. You can also charge your smartphone on the instant to remain your internet connection or make phone calls without worry about the battery is out of power.

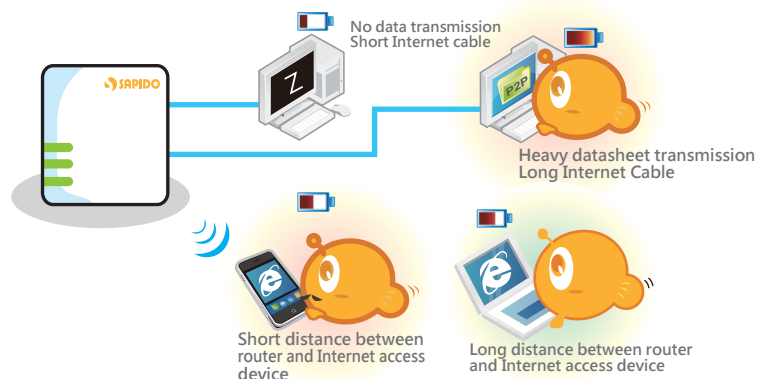

► **Stay Onile for Hours**

► **Charging Smartphone while Surfing the Internet. Power on both Smartphone and Internet.**

► **802.3az Standard plus Green AP Technology – Save up to 80% Power Consumption**

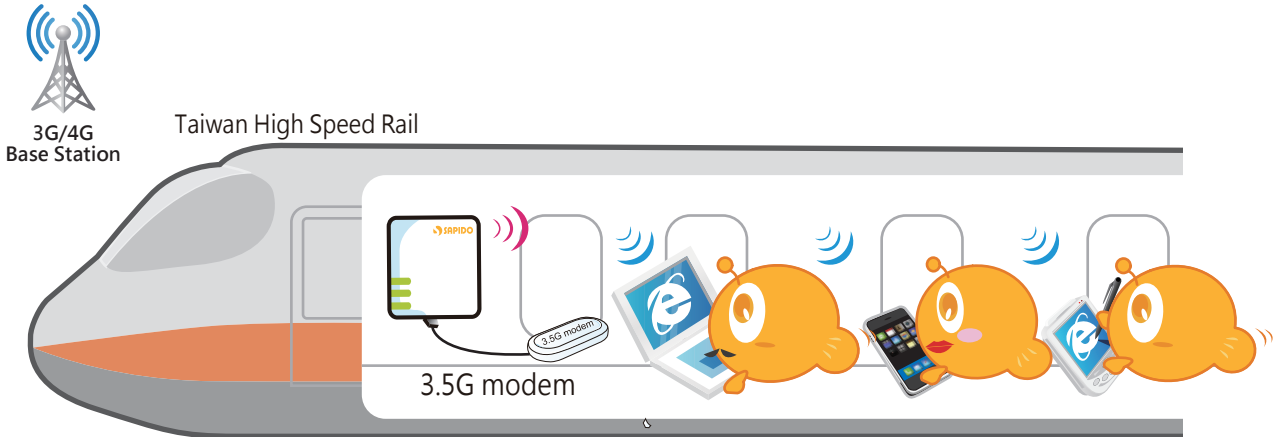

Complying with the latest 802.3az Energy Efficient Ethernet standard and carrying Green AP technology, this Mobile Hotspot adjusts power consumption via auto detection of internet connection and packet transmission to avoid any waste of electricity, thus it utilizes energy more effectively.

## ► Cases of Using Mobile Power Station - Mobile Hotspot

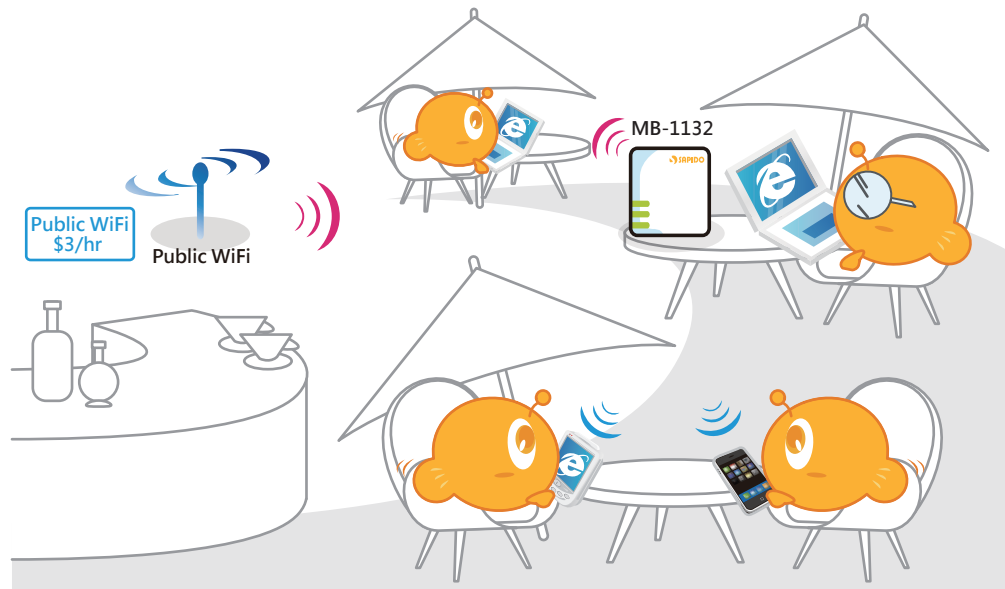

### Business Trip (3G/4G modem, smartphone)

Stay contacted with customers, family, and company during business trip via Internet. Once you connect 3G modem or smartphone to MB-1132, your NB, iPad, PDA, etc...can access to Internet at ease. When your iPhone is out of power, MB-1132 can also charge your smartphone on the instant to remain your internet connection or make phone calls.

### Coffee Shop (Public WiFi)

Share with friends not only gossip, but also the WiFi account! With MB-1132, you only need to pay for one Public WiFi account, and friends can share it for Internet access at the same time.

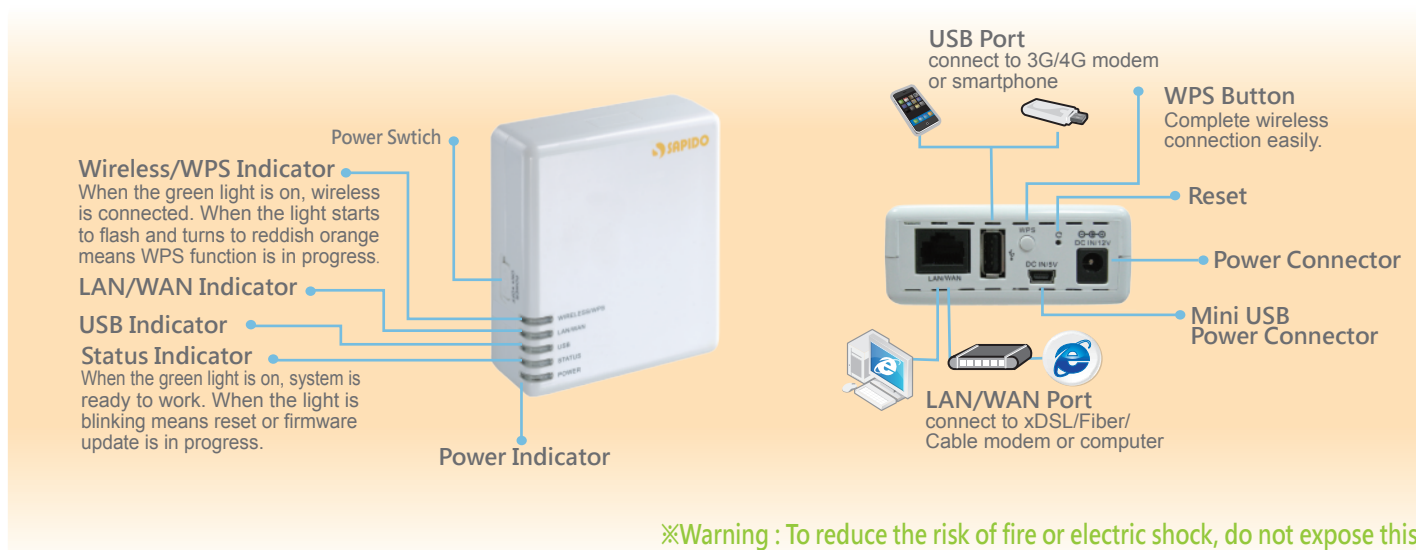

### Stay in Hotel (AP Mode – Wired to Wireless)

Normally, you need to use Ethernet cable for Internet access when staying in hotel, and if there is more than one device getting online or roommate using Internet, you will be busy at switching Ethernet cable. In this case, all you need to do is connecting the Ethernet of hotel to MB-1132, then wired will turn to wireless. In this way, your smartphone, iPad or laptops can access to Internet simultaneously.

## Diagram of Functions

⚠Warning : To reduce the risk of fire or electric shock, do not expose this router to rain or moisture.

### Hardware

LAN /WAN Port :  
10/100 Mbps RJ45 \*1

USB Port :  
USB 2.0\*1(for 3G/4G modem and smartphone)

Standard :  
IEEE 802.11b/g/n

WiFi Data Rate :  
802.11n (up to 300Mbps)  
802.11g (up to 54Mbps)  
802.11b (up to 11Mbps)

LED Indicator :  
POWER, STATUS, USB, LAN/WAN, WIRELESS/ WPS

Button : WPS

Antenna : 2dBi\*2 (Build-in)

### Firewall

URL / Port / IP / MAC Filtering, SPI against DOS attack

### System Management

Web-base Interface  
Firmware upgrade via web  
Profile save  
Event log  
English Set-up Interface

### Power Saving

Ethernet : IEEE 802.3az Standard  
WiFi : Green AP Technology

### Package Contents

MB-1132 Router / Quick Install Guide / Power Adapter / Li Battery\*2

### Network Feature

WAN Connection :  
▪ Wired/Wireless modem (Static IP, DHCP, PPTP, PPPoE, L2TP)  
▪ 3G/4G : UMTS/HSDPA/HSUPA  
CDMA2000  
TD-SCDMA

▪ Smartphone OS: iPhone  
Google Android  
Windows Mobile  
Symbian  
Blackberry  
Bada

▪ WiMAX ready  
Routing : DHCP server, client, DNS server  
NAT : Virtual server, DMZ  
UPnP : UPnP NAT Traversal  
Session : 20,000

### Wireless Application

Wireless Security :  
WEP 64 or 128 bit/WPA/WPA2/WPA2 Mixed  
WPS(Wi-Fi Protected setup) : PBC/PIN  
WDS  
Multiple AP

### Environment

Dimension : 91(L) x 78(W) x 33.2(H) mm  
Weight : 214.6 g (w/battery)  
Battery : 18650 Li-Ion Battery, 3.7V / 2200mAH\*2  
Operating Environment : Temperature 0~40°C(32 to 104°F); Humidity 10~85%  
Storage Environment : Temperature -20~70°C (-4 to 158°F); Humidity 5~90%  
Power : AC in 100~240V, DC out 12V 1A  
Mini USB 5V 1A  
Support OS : Windows, MAC OS X 10.4 and following version, MAC OS X Lion,  
Linux 2.6.x and following version

SAPIDO dedicates efforts in the development of products with multi-applications, down to the thoughts and respects as a person.

SAPIDO products are well known for not only its sleek design but also practical multiple features with simplest setup requirement. Cold technology dissolves in the passionate Sado created by SAPIDO. It encourages more users to try out unknown networking and digital products, which brings them a high-tech life with great enjoyment and convenience.
